

Great Boost Perth Amboy Japanese Earthquake Relief Fund

OL. XLIII. No. 264.

PERTH AMBOY, N. J., MONDAY, SEPTEMBER 10, 1923.

THREE CENTS

FINAL EDITION

REPORT FROM THE NEW BRUNSWICK EARTHQUAKE

OVER \$1,000 RAISED DRIVE HERE TO AID STRICKEN JAPANESE

Organization at Work to Fill
Quota of \$6,600 Set for
this City

ALL CLASSES HELPING

Encouraging Reports Re-
ceived from all those Work-
ing for Drive's Success

With the chairman of the various committees working with unlimited interest, the fund being raised in this city by the Red Cross for the purpose of aiding the earthquake sufferers in Japan has reached \$1,043. The quota to be reached by this city is \$6,600.

Andrew White, chairman of the lawyer's committee, has reported that everything is going along in great shape in his work. Many donations were reported by the chairman on Saturday, while Dr. C. W. Naulty, chairman of the doctor's committee, has canvassed every one of these professional men and all have declared their willingness to donate.

John Pfeiffer has been added to the industrial committee, of which J. P. Rieley is chairman, and an interesting report is expected from that body in the near future. Several large contributions are also expected to be reported in a few days from the business men's committee. I. T. Madsen is chairman of this body and its being assisted by Albert Leoni.

Dr. C. H. Burlew, chairman of the dentist's committee, and Andrew Anderson, chairman of the lodge and organization committee, and Frank Dorsey, chairman of the coal and automobile dealers committee, all report progress in the soliciting of the funds and promise encouraging accounts shortly.

The emergency call to help the stricken country with its millions of homeless thousands of injured and others who lack food and clothes, was placed before the people of this city yesterday at all the churches. The plea is being made through the Red Cross, and all drug stores about the city boxes will be placed with a sign, explaining the cause, in which persons may drop their contributions.

The Red Cross rooms at the Raritan building, which have been closed every afternoon during the last several months, will be open at all times during the drive to receive donations. Many of these were found in the list of contributions sent by mail over the week-end.

The following is a list of the contributors and amounts as reported at the Red Cross headquarters to date:

Fraser Brothers	100
George Reynolds	100
Isaac Alpern	100
T. Madson	100
Evening News	100
Dr. Charles I. Silk	25

JEWISH HOLIDAY STARTS TODAY

Rosh Hashanah, New Years,
Will be Observed Commem-
ing at Sun Down

New Years, Rosh Hashanah, services in the Shaarey Tefillah synagogue, on Madison avenue will be conducted by Rev. H. L. Chazin who is entering upon his fourth year of service with the Shaarey Tefillah congregation. Rev. Mr. Chazin spent fifteen years in religious work at Minneapolis, Minn., before he came east. The splendid efforts put forth by the Jews of this community in furthering many local movements and institutions are highly commended by Rev. Mr. Chazin who points out as worthy monuments of the united efforts of the entire Jewish community the establishment of the Board of Koshers and the building of the Hebrew School on a firm footing.

The materialization of the new Y. M. H. A. building which is soon to play such an important part as the center for many of the Jewish activities, is also the outgrowth of the efforts made by the Perth Amboy Jewry. The plot of ground on which the building is erected was donated by the Shaarey Tefillah congregation and the whole community backed the project. The Board of Koshers has recently set aside a fund of \$1,000 for the furnishing of the Hebrew School room in the Y. M. H. A. building. This spirit was also manifested in the various drives, among them being the Keren Hayesod campaign.

Rev. Chazin's New Year's message is that these efforts be continued and that when another year rolls around the gratifying results could be shown.

The services this year at the Shaarey Tefillah Synagogue will be conducted with an exceptional fine choir. Dirigent J. Bernstein of New York will direct the choir while many of the compositions to be rendered have been especially written for the choir by the Prof. S. D. Bach, conductor of the New York City Services. This will be the evening and tomorrow evening at 7 o'clock, and tomorrow and Wednesday mornings at 7 o'clock. Rabbi S. Rabinowitz will deliver the sermons at the services and G. Carmel, representative of the Keren Hayesod, of New York state will speak in behalf of the Hayesod campaign tomorrow morning at 11 o'clock.

A junior congregation has also been organized and will hold special services on Tuesday and Wednesday at 1:30 P. M. T. S. Chazin will direct the services.

WOMEN'S DEMOCRATIC CLUB HOLDS MEETING TONIGHT

The first full meeting of the season of the Women's City Democratic Club will be held in their club rooms over the Strand theatre, in Smith street, tonight at 8 o'clock. Mrs. Daniel Sullivan, president, urges that all members be present as plans for fall activities will be started. Anyone desiring to join the club should be present at tonight's session.

SAFE IN TOKIO

Word has been received in this city that Miss Genevieve Caulfield, of New York City, a niece of Mrs. William P. Bradley, of Market street, is safe in Tokio. Miss Caulfield is a teacher in the Imperial school in Tokio and has many friends in this city.

Notice—J. Smierling, 148 Smith Street, will close this room at 6 and remain closed until Wednesday evening at 6 P. M. 27885-9-10-11

FALL CAMPAIGN IN FULL SWING

First Registration Day To-
morrow for the Election,
Primary and General

REPUBLICANS CONVENE

Crowd at Rally Held by Coun-
ty G. O. P.—Presidents Hard-
ing and Coolidge Praised

Voters of Perth Amboy will have their first chance to register for the primaries and this year's election when the twenty polls in this city open tomorrow afternoon at 2 o'clock. This will be the first of three registration days and all those who did not vote at the general election in this city last year must register tomorrow if they desire to vote at the primaries on Tuesday, September 25. As there are city and county contests on both the Democratic and Republican tickets this year it is likely that the candidates and their workers will be out in full force tomorrow getting out the voters who did not vote at last fall's election. This year is adding to the list of those eligible to vote at the primaries.

Leaders of both parties and members of the election boards urge that every voter register tomorrow ready and able, thus lessening the number to register on either of the two remaining registration days. All persons who register tomorrow are automatically qualifying to vote at both the primaries and general election without registering again.

City Clerk Costello has all of the equipment necessary for the use of the poll clerks tomorrow ready and has requested the election officers to procure these packages from his office this evening prior to 8 o'clock as he has a meeting of the Board of Aldermen at that hour.

The various candidates for office in which there is to be found a contest are waging intensive campaigns, resorting to signs, cards, letters, and newspaper circulars and personal appeal.

At the Republican outing in Forest Park, Highland Park, Saturday afternoon a number of the G. O. P. candidates stood hand to hand to make themselves acquainted and push their campaigns.

Republicans Gather

NEW BRUNSWICK, Sept. 10.—Republicans from every section of the county gathered at Forest park Saturday afternoon to attend the annual outing and incidentally assist in driving the opening gun of the 1923 campaign.

The material reduction in taxes through the federal budget act and the consummation of the four power treaty guaranteeing a perpetual peace, were the topics of the evening were spoken of by National Committeeman Hamilton Kean in outlining the accomplishments of the late President Harding and the toll and loyal support of President Coolidge was asked for that the policies of the Republican party might be carried to completion. Mr. Kean also stressed the importance of every Republican registering and voting at the general election next November so that they may qualify to vote for the selection of representatives to the national convention next spring.

Appleby is Speaker

Ex-Congressman T. Frank Appleby of Asbury Park, introduced by Senator Larson as one of the best representatives ever sent to Washington from this district was greeted by a hearty applause as he took the floor to speak on national politics.

"We are now reaping the benefit of the tariff bill enacted by the last congress after a great deal of criticism by our political opponents," declared Mr. Appleby in contrasting the business slump following the war to the prosperous conditions brought about under the Harding administration and the necessity of a full registration to carry the 1924 campaign to a success was pointed out.

NIELSEN—On Saturday, Sept. 8, 1923, Louise, beloved husband of Miss Nielsen, aged 70 years.
Relatives and friends, also Lawrence Lodge, to J. O. P. Thor Lodge, 44 D. B. 8 of Perth Amboy, Shepherd's Guide Lodge, 41 O. of S. B. Lehigh Valley Railroad Veterans Association are invited to attend the funeral from his late residence, 98 Maple Street, Jersey City on Tuesday, Sept. 11 at 2 P. M. Interment New York Bay Cemetery, automobile cortege. 27879-9-10-11

Auto Mechanic: steady employment, Superior Garage Co., Maple Street. 27885-9-10-11

One Side of Amboy Ave. Opened; Paving Pushed

The west side of Amboy avenue has been opened to the lighter forms of traffic. The street was opened by City Engineer Louis P. Booz, Jr., who decided that the city could not keep the street closed for a longer period, although it is still in an unfinished condition. It was the intention to keep the street closed until the top asphalt surface had been spread over the concrete, but when this work was delayed Mr. Booz decided to allow both the north and south bound traffic to run over the concrete. Mr. Booz would not say today when the top surface might be spread on the new road bed.

23 DIED IN SEA TRAGEDY

Medical Testimony is Heard
at New Brunswick Today—
Continued Next Monday

NEW BRUNSWICK, Sept. 10.—The taking of testimony in the Charles Manning Freeman will case is being continued before Judge John P. Kirkpatrick in the orphans court here today. The session today given over to the taking of medical testimony. Next Monday has been set as the time for the summing up of the case.

Henry A. Cotton of the State Hospital for Insane, at Trenton was the first of the expert medical witnesses called. The first of Dr. Cotton's testimony was taken up with telling of his personal knowledge of Dr. Freeman. He declared Dr. Freeman first came to the hospital for treatment on August 2, 1920, voluntarily. He escaped from the institution on August 26, 1920. During his first stay at the hospital, Dr. Cotton said Dr. Freeman's memory was defective and that he suffered from delusions. Dr. Freeman realized his own condition, Dr. Cotton said, and alleged that he had been caused by the use of drugs and liquor.

The next time Dr. Freeman came to the hospital, Dr. Cotton said, was on August 23, 1921. His visit then was not voluntary, as he had been sent by his wife. He was released on October 5, Dr. Cotton stated that he saw very little change in Dr. Freeman's condition between the two visits.

Thomas Brown, representing Mrs. Mary E. Wilkins Freeman, Dr. Freeman's widow, who was cut off with the case, opened the case for the complainant by asking a hypothetical question. It took Mr. Brown at least one hour to read the question, which requested of Dr. Cotton to state whether or not in his opinion, Dr. Freeman was in a mental condition at the time the will was made to draw up a document of this kind.

The only principals present at today's session are the four sisters of Dr. Freeman. Mrs. Freeman has never attended any of the hearings. Dr. Freeman's estate, which was left to the majority of his estate, and who has been present at all the proceedings was not in court today, due to the fact that he is confined to his bed by illness.

Cause Investigated

WASHINGTON, Sept. 10.—The theory was expressed today by high naval officials that a tidal wave or before the Japanese earthquake, caused the disaster to destroy division 11 off the California coast yesterday.

Is Arrested Here

William J. Highland, of Newark, was arrested by Officer William Kilman early Saturday night for failure to stop after injuring two people in Woodbridge. Highland was driving a Newark Paper Box company truck. The driver was held here until the arrival of Sergeant Larsen and Officer Oldbright, and upon his arrival in Woodbridge furnished \$100 bail for a hearing a week from today.

Investigate Robbery

The police are investigating a report that the Gies Drilling Company shop at William street and the Pennsylvania railroad, was entered on Saturday night, and a quantity of tools stolen. Motorcycle Officer Selboeth and Chauffeur Koven visited the place yesterday, and Detective Gutowski is working on the case today. Entrance was gained by tearing some tin off the side of the building.

Takes New Position

Arthur "Doc" Emmons, local playground director, left last week to take up his new duties and physical instructor and recreation director at the State Home for Boys in Jamesburg. This is a new department in the home and "Doc" will have complete charge.

1924 Chevrolet reduced in price. Sedan \$795.00. Jefferson Motors, Inc. Phone 15.

URGENT CODE TO END DISPUTES

Coal Commission in Report to
President Today Makes
Recommendations

NECESSITY OF COAL

National Interest in Industrial
Controversies of Most
Importance

WASHINGTON, Sept. 10.—Comparing the controversy in the coal situation to that over slavery just prior to the Civil War, the United States coal commission declared in a report submitted to President Coolidge today that the national interest required enactment of a fixed code for settlement of this and other industrial disputes.

Regardless of the inherent rights possessed by both sides, the commission held the necessity of coal to the general public makes it incumbent upon both operators and workers "to make some personal sacrifices in the interest of the common weal."

"The condition resembles the conflict between the definition in the Declaration of Independence concerning human rights, and the then clearly constitutional right of human slavery," the report said. "The great mass of those arrayed upon either side were unwilling to compromise or adjust. It was permitted to go until the agony of a fraternal war solved the problem. It is to be hoped that we have learned wisdom by experience."

The outbreak at Herrin, Ill., June, 1922, and the more recent disturbance in the West Virginia fields were cited as indicative of the serious aspect of the general situation. The commission reviewed the history of both cases in detail, but declined to fix responsibility further than to say the serious results might be attributed to the intense passions which had been gradually fostered among the members of the two opposing camps, and to the attitude of the communities involved toward law and order.

While public officials at Herrin undoubtedly were lax in performing their duty, the report said, "the union and operator at that place, if industrial peace is to be hoped for," the commission said, "then some method must be found to guarantee, as near as fallible human judgment may, equal access to justice to capital, to labor and to the public interest demands that certain principles should be recognized by both capital and labor as this yardstick."

Declaring it would be better for the participants themselves to work out the exact terms of the code, the commission set forth as the framework, the following principles:

1. No contract is of any valid binding force in America which has not been freely and voluntarily entered into.
2. The right of a man to work when, where and for whom and under what conditions, and at what wage he chooses, so long as he elects to assert his individual right, must never be interfered with and the State must furnish him protection and peace while he exercises this right.
3. In a free government men have a right to combine themselves together into organizations for collective bargaining with reference to terms and conditions under which they will work; they must exercise this right without force and intimidation, and must not interfere with the right of the man who chooses to dispose of his time individually.
4. Society has a right to fix a limitation beyond which it will not permit either these facts or de jure organizations to go.
5. There is an implied duty upon corporations to pay the salaries of its employees who are able-bodied, willing and competent, and who gives an honest day's work, sufficient wage to enable that person and his family to live in accordance with the standards of American life, and to pay in addition thereto for skill and experience.
6. The general public has a right to demand of its government that it shall not freeze in the midst of an abundance of coal, unless capital and labor adopt methods that will furnish the public coal when needed.
7. An outraged public sentiment will furnish the supply by either the army or the police.
8. When contracts have been voluntarily entered into, "the industry itself should provide boards of arbitration, both local and appellate, to speedily dispose of causes in accordance with the terms of the contract and the principles herein set out."

(Continued on Page 2)

CALCUTTA IS SHAKEN BY NEW EARTHQUAKE IS REPORT OF LONDON

LONDON, Sept. 10.—(By The Associated Press.) Fifty persons are reported killed or injured in an earthquake shock at Calcutta today, says an Exchange Telegraph dispatch from that British Indian city. The resulted casualties occurred in the Nymensingh district, where many houses collapsed.

The center of the disturbance was thought to be in China.

NEW YORK, Sept. 10.—The earth quake which killed fifty persons at Calcutta today probably was supplemental to the disastrous quake in Japan, in the opinion of Chester A. Reers, in charge of the seismograph at the American Museum of Natural History.

It is not in the same earthquake zone Japan, but in one that begins in southern China and extends to the Mediterranean. This zone, however, is closely associated with the one which includes Japan.

The Calcutta disturbance is not likely to be immediately followed by another of serious dimensions, he said.

Summit is Changed

SHANGHAI, Sept. 10.—(By The Associated Press.)—A News Agency dispatch from Osaka states that the summit of Mount Fuji, apparently as a result of the quake, has undergone a most noticeable change, the peak now appearing much flatter than formerly.

It was also stated that all Tokio colleges were destroyed with the exception of Waseda and Keio Universities.

Report Fever Epidemic

WASHINGTON, Sept. 10.—Reporting that an epidemic of fever had broken out at Tokio, Ambassador Woods in a cable to the State Department today said it was imperative that one million dollars of American Red Cross funds be placed immediately at the disposal of its relief committee in Japan for the quick purchase of medical supplies and food from nearby markets. An epidemic of fever of a very type has already broken out in Tokio. Request you reply immediately.

60,000 Bodies Recovered

TOKIO, Sept. 10 (By The Associated Press).—Sixty thousand bodies had been recovered in Tokio and Yokohama up to and including today and the police estimate that 500,000 persons have been treated for wounds and sickness as a result of the earthquake. A handling party from the United States destroyer Huron buried the dead from the American naval hospital at Yokohama.

LOCAL MEN ASK THAT A RECEIVER BE APPOINTED

NEWARK, Sept. 10.—Albert Leon and Harry Brower, both of Perth Amboy, through their attorneys, Leavitt & Ulrich, of Elizabeth, filed in the federal court here today equity receivership proceedings against the Bolte Plume Plate Corporation of Bound Brook. According to the complaint Leon and Brower are creditors and stockholders in the company and charge that the company owes them a total of \$4,000, the sum of \$2,000 being due each one on note, dated July 15, 1922. The insurance company offered \$9,000. The assets of the company are given as \$15,000 and the liabilities as \$38,500.

The complaint also mentions W. L. Dill as having advanced \$2,000 to the company. Federal Judge Runyon named Charles Brown, of Elizabeth, as temporary receiver, and his bond was fixed at \$10,000. Judge Runyon set October 1 as the date for the company to show cause why the receivership should not be made permanent.

CARD OF THANKS

We wish to extend our appreciation and thanks to all of our relatives and friends for the beautiful floral tributes, special delivery, and the many kind words of sympathy extended to us in the loss of wife and mother. JACKO AND FAMILY. 27876-9-10-11

Notice To Public

New Bus Schedule now in effect on Axel's Bus Line between Perth Amboy and New Brunswick.

Leave Perth Amboy—25 minutes after and 5 minutes of the hour.

Leave Metuchen—25 minutes after and 5 minutes of the hour.

Buses will now leave every half hour for Keasbey and Fords—15 minutes after and 15 minutes of the hour.
